

Parabolic Antenna with reflector size of 2 m

Technical Characteristics

Frequency range	403 a 470 MHz
Cross polarization	27 dB
Input power	100 Watts
Half power angle - Horizontal	14°
Half power angle - Vertical	10°
Diameter	2,0 m
VSWR	1,2 dB
Connector	N Female
Front to back ratio	25 dB
Gain	16 dBi
Weight	26 Kg

Parabolic Antenna with reflector size of 2m - UHF
 Horizontal pattern for the horizontal polarization - Half power angle: 14°

Parabolic Antenna with reflector size of 2m - UHF
 Horizontal pattern for the vertical polarization - Half power angle: 10°
