

## Parabolic Antenna with reflector size of 3 m

### Technical Characteristics

Frequency range	470 a 580 MHz
Cross polarization	29 dB
Input power	100 Watts
Half power angle - Horizontal	9°
Half power angle - Vertical	8°
Diameter	3,0 m
VSWR	1,2
Connector	N Female
Front to back ratio	25 dB
Gain	21,5 dBi
Weight	42 Kg

Parabolic Antenna with reflector size of 3m - UHF  
 Vertical pattern for the horizontal polarization - Half power angle: 9°

Parabolic Antenna with reflector size of 3m - UHF  
 Vertical pattern for the vertical polarization - Half power angle: 8°
